

PCX Lite

Semi-Soft Sided Case with a Cart

Introducing a competitively-priced wheeled airline carry-on, constructed as lighter duty than more expensive PCX Cases, with semi-soft sides and a patented CART feature designed to carry 100 pounds of additional baggage on top. This no frills, but highly functional case, conveniently allows you to roll your most delicate, valuable, and frequently used items on board and down the aisle with you. There is no need to struggle with your additional luggage or rent a luggage cart, simply convert the PCX Lite into its patented CART position, stack your items on top and off you go.

It's a **CASE...**
a **TOTE...**
a **CART.**
All in one!
